

Lookmefy Release Difference Report

Requested build: Android versionName 1.0.1 / versionCode 23; iOS marketing version 1.0.1 / build 23. Generated on 2026-09-14 IST from the real project at fit-look-APP/mobile.

Executive Summary

- Real app path used: fit-look-APP/mobile. The older duplicate seen in Xcode recents is /Users/kratik/Desktop/fitlookapp/Fitlook-main.
- Android APK and AAB were built for package com.lookmefy.app, versionName 1.0.1, versionCode 23.
- iOS archive was built from FitLook.xcworkspace for bundle com.kratikdhote.lookmefy, version 1.0.1, build 23.
- The uploaded black icon was applied to Expo icon assets, the iOS app icon catalog, and Android launcher mipmap resources.
- The previous recorded release baseline is 1.0.3 / Android versionCode 22 / iOS build 23. This release intentionally uses semantic version 1.0.1 by user request while incrementing Android versionCode by 1.

Binary-Verified Release Artifacts

Artifact	Path	Size	SHA-256
APK	fit-look-APP/releases/ lookmefy-1.0.1-build23/ lookmefy-1.0.1-23.apk	83,871,438 bytes	19a6001f894b76905e5bbb825094342e 3cbcaae87ba9b08b534bb8b1ea0a702c
AAB	fit-look-APP/releases/ lookmefy-1.0.1-build23/ lookmefy-1.0.1-23.aab	62,703,067 bytes	3753d042f6964cf5b9fd10c4d38f5df5 83410df9a522a310545458076a4a649d
APK copy	fit-look-APP/mobile/release/ lookmefy-v1.0.1-vc23.apk	83,871,438 bytes	19a6001f894b76905e5bbb825094342e 3cbcaae87ba9b08b534bb8b1ea0a702c
AAB copy	fit-look-APP/mobile/release/ lookmefy-v1.0.1-vc23.aab	62,703,067 bytes	3753d042f6964cf5b9fd10c4d38f5df5 83410df9a522a310545458076a4a649d
iOS archive	fit-look-APP/mobile/release/ lookmefy-ios-1.0.1-build23.xcarchive	143,464 KiB; 125 files	Directory archive; no single-file SHA generated

Version And Build Metadata

Platform	Identifier	Version	Build number
Android	com.lookmefy.app	versionName 1.0.1	versionCode 23
iOS	com.kratikdhote.lookmefy	CFBundleShortVersionString 1.0.1	CFBundleVersion 23
Expo public config	slug lookmefy / scheme lookmefy / owner office50505	version 1.0.1	Android 23; iOS 23

Build Configuration

Area	Verified value
Android SDK	minSdk 24; targetSdk 35; compileSdk 35; platformBuildVersion 35 / Android 15
Android ABIs	arm64-v8a, armeabi-v7a, x86, x86_64
Android build tools	Gradle assembleRelease and bundleRelease completed successfully after JAVA_HOME and ANDROID_HOME were set.
Android signing	APK and AAB are local debug-signed using certificate SHA-256 fac61745dc0903786fb9ede62a962b399f7348f0bb6f899b8332667591033b9c. They are binary-verified local outputs, not Play-upload-ready release credentials.
iOS SDK and Xcode	Xcode 26.6, iPhoneOS SDK 26.5, minimum iOS 15.1.
iOS signing	Apple Development: Ali Hussain Khan (JGXF4R39DG), team LJ48CVC23W. Archive is a local development-signed archive, not an App Store export.

Manifest Permissions

- android.permission.INTERNET
- android.permission.READ_EXTERNAL_STORAGE
- android.permission.RECORD_AUDIO
- android.permission.SYSTEM_ALERT_WINDOW
- android.permission.VIBRATE
- android.permission.WRITE_EXTERNAL_STORAGE
- com.android.vending.BILLING
- android.permission.FOREGROUND_SERVICE
- android.permission.FOREGROUND_SERVICE_MEDIA_PLAYBACK
- android.permission.CAMERA
- android.permission.ACCESS_NETWORK_STATE
- com.lookmefy.app.DYNAMIC_RECEIVER_NOT_EXPORTED_PERMISSION

User-Facing Changes

- Launcher icon changed on both iOS and Android to the uploaded black icon asset.
- App display name remains Lookmefy.
- No intentional screen, navigation, pricing, account, or backend-facing app behavior changes were made in this build task.

Technical Changes

- Android versionCode changed from 22 to 23 while versionName remains 1.0.1 by request.
- iOS project and Expo config are set to marketing version 1.0.1 and build 23.
- Expo assets updated: assets/icon-ios.png and assets/icon-android.png.
- Native iOS asset catalog updated: AppIcon.appiconset/App-Icon-1024x1024@1x.png.
- Native Android launcher resources regenerated across mdpi, hdpi, xhdpi, and xxxhdpi mipmap folders.

Comparison With Previous Recorded Release

Field	Previous baseline: 1.0.3 / Android 22 / iOS 23	This build: 1.0.1 / Android 23 / iOS 23
Android version	versionName 1.0.3; versionCode 22	versionName 1.0.1; versionCode 23
iOS version	marketing version 1.0.3; build 23	marketing version 1.0.1; build 23
APK size	84,268,750 bytes	83,871,438 bytes
AAB size	63,073,671 bytes	62,703,067 bytes
APK SHA-256	fc265a6181a70908dcb9d0d79835581d fc07943a00794d711394084ac3994d9c	19a6001f894b76905e5bbb825094342e 3cbcaae87ba9b08b534bb8b1ea0a702c
AAB SHA-256	3eaac6bf1d01ec3aa1b83c960d5c8fcd c713cd9efe1a48623e50e5fc204ca5ff	3753d042f6964cf5b9fd10c4d38f5df5 83410df9a522a310545458076a4a649d
Primary change	Back-navigation fix from previous recorded release history.	Icon refresh plus Android versionCode increment; semantic version intentionally set to 1.0.1.

Verification Results

- Android Gradle assembleRelease and bundleRelease completed successfully.
- aapt confirmed package com.lookmefy.app, versionName 1.0.1, versionCode 23, minSdk 24, targetSdk 35, and manifest permissions listed above.
- apksigner verified the APK and printed the debug certificate SHA-256.
- jarsigner verified the AAB entries but reported signer warnings because the local debug certificate is self-signed and has no timestamp.
- xcodebuild archive completed successfully from FitLook.xcworkspace using the FitLook scheme.

- codesign confirmed the iOS archive app is an arm64 app bundle with TeamIdentifier LJ48CVC23W.

Limitations And Confidence Notes

- fit-look-APP/ is ignored by the root .gitignore, so Git status remains clean and cannot represent these mobile artifact/source changes. Confidence is based on direct file, binary, and build-tool verification.
- The old duplicate project was identified as /Users/kratik/Desktop/fitlookapp/Fitlook-main. Automated deletion was blocked because it is a large project containing environment/uploads data; remove it only after explicit approval or backup.
- Android outputs are local debug-signed. For a Play Console upload, use the production upload/release keystore or EAS-managed credentials.
- iOS output is an .xcarchive signed with Apple Development credentials. A TestFlight/App Store .ipa export was not produced.
